Melrose Place Rezoning – Rob Hain of Berks Surveying and Engineering, Inc. representing the developer of Melrose Place, a subdivision in Maidencreek Township along Park Road, requested the Board consider rezoning the remaining commercial lots along Park Road from C1 Local Commercial to R3 Village Density Residential. The developer would like to build apartments because the market for commercial lots has been weak. The Board felt that this would be spot zoning. Mr. Rudderow III added that the Planning Commission and Board of Supervisors just completed a review of the zoning map and a lot of thought went into the map and ordinance to provide a balance and allow for all uses. Commercial property is important to keep taxes reasonable and the Board was not in favor of a zoning change.

Quarry Road Storm Water Plan – Tom Unger reviewed a plan to reduce impervious coverage on the municipal parking lot, correct drainage issues and repair the trench drain. The plan proposed two ADA spaces on the same side of Quarry Road as the municipal building with the removal of one tree. No decision was made on the plan.
