#### ACTION ITEMS

##### **Truck Quotes for Ford F350 and Chevy3500 HD - attached**

Ford - \$32,556

Chevy – \$32,958.00

Upfit – based on choices. Most expensive combination \$10,223.

**Ride on Sweeper** – Rental \$569.25 for non curbed streets. Scheduled for the first full week of April.

**Roadside Mowing** – cost to rent mower from Stephenson Equipment is \$2800 for 1 week. We will need it at least three times.

**Crack Seal** – quote good until February 28<sup>th</sup>  
.39 / lb which is .10 lower than last year.

**119/123 Via Dolorosa Drive** – culvert is full. Property line runs down the middle of the culvert but the culvert is set well outside the Road right of way. 123 Via Dolorosa is vacant, possibly foreclosed and the owners do not speak English or leave forwarding contact information.

**410 Blandon Meadows Parkway** – The homeowner repaved their driveway and raised the level of paving inches above the road surface in the road right of way. Plow trucks nicked a corner of the paving and the homeowner wants the Township to repair. It seems that the road was not notched out and the contractor simply paved on top of the road and this we will have an ongoing issue. The driveway level in the swale area is also a concern.
